

Advanced Tutorial

Galaxy Skull

Step 1: Open a portrait in Draw. Use one of your own pictures, or find one by another user by searching for #FreeToEdit and #Portrait in the app. Tap on the Add icon and select "Clipart."

Step 2: Open the Stardust pack.

Step 3: Tap on the Clipart you'd like to use.

Step 4: Drag the corner of the Clipart to enlarge it and drag it to place it over the face of your portrait. Tap on the Add icon and select "Clipart."

Step 5: Add a second Clipart. Tap on the layers icon to open the layers drawer.

Step 6: Tap on "Normal" and switch to the Overlay blending mode.

Galaxy Skull

Step 7: Tap on the plus sign and select "Empty Layer." Close the layers drawer.

Step 8: Tap on the Add icon and select "Clipart."

Step 9: Open the Scanography pack.

Step 10: Tap on the skull Clipart.

Step 11: Enlarge the Clipart and drag it to place it. Open the layers drawer.

Step 12: Add another empty layer.

Advanced Tutorial

Galaxy Skull

Step 13: Drag the empty layer below the layer with your skull. Then, tap on the paint bucket icon.

Step 14: Select the color black and tap on the check mark to confirm.

Step 15: Tap on the top layer to select it. Switch to the Xor blending mode.

Step 16: Tap on the three-dot icon and select "Merge."

Step 17: Close the layers drawer. Tap on the eraser icon in the bottom toolbar.

Step 18: Use your finger or stylus to erase everything except the shadows on the skull. Tap on "Done" to finish. Save your picture and share it on PicsArt with the hashtag #GalaxySkull!
